

Prestige Teachability Framework

AgriSETA / SAQA Aligned NQF Module & Credit System

Lead Enterprise: Leth'Khanya Trading (Pty) Ltd (Mduduzi Wiseman Nkosi — Disability Desk)

Partner Enterprise: Lwandile Engineering Projects (Sipho Wiseman Khuzwayo)

Standard Alignment: AgriSETA, SAQA & QCTO Competency Guidelines

Total NQF Credits: 140 Credits

Target NQF Range: NQF Levels 1 – 4

Execution Architecture: Scapush Precision Execution

Executive Architectural Overview

This document engineers the formal, SETA-accredited **Teachability & Skills Credit Matrix** tailored for the joint initiative by **Leth'Khanya Trading (Pty) Ltd** and **Lwandile Engineering Projects**. Designed with total universal accessibility at its core, this modular framework translates high-tech smart farming (hydroponics, automated swine climate units, solar EV charging) into accredited AgriSETA learning units mapped to South African National Qualifications Framework (NQF) standards.

1. Master NQF Module & Credit Matrix

Module Code	Module Title & Domain Scope	SAQA / SETA US ID	NQF Level	Credits	Universal Accessibility Integration
PREST-MOD-101	Smart Hydroponic Crop Production <i>(Lettuce, Peppers, Tomatoes, Herbs)</i>	US 116203 / US 116205	Level 1	12	Waist-level benches, automated nutrient dosing, tactile sensor controls
PREST-MOD-102	Soil Health, Regeneration & Irrigation	US 116172 / US 116201	Level 2	10	Solar drip automation, micro-irrigation valves requiring zero heavy lifting
PREST-MOD-201	Swine Auto-Controlled Microclimate Unit Operations	US 116212 / US 116218	Level 2	16	Automated temperature/ventilation, automated feeding troughs, low-reach access
PREST-MOD-202	Small Ruminants (Sheep) & Poultry Production	US 116216 / US 116219	Level 2	14	RFID herd tracking, ramp-assisted pens, visual/audio feeding cues
PREST-MOD-301	Solar EV Fast-Charging & Adaptive Farm Equipment	US 116311 / US 244444	Level 3	18	Low-reach EV charging plugs (800mm), adaptive hand-control UTV buggies

Module Code	Module Title & Domain Scope	SAQA / SETA US ID	NQF Level	Credits	Universal Accessibility Integration
PREST-MOD-302	Agri-IoT, Climate Automation & Sensors	US 116320 / Advanced Tech	Level 3	20	Screen-reader accessible UI, digital dashboards, automated environmental alerts
PREST-MOD-401	Agribusiness Financial Management & Markets	US 116345 / US 116358	Level 4	25	Voice-assisted bookkeeping apps, micro-enterprise market incubation
PREST-MOD-402	Cooperative Leadership, Quality & Safety (OHS)	US 116365 / US 116334	Level 4	25	Inclusive governance, universally accessible OHS emergency protocols
TOTAL PROGRAMME ACCREDITATION CREDITS			NQF 1–4	140	Full AgriSETA Learning Pathway Certificate

2. Detailed Module Breakdown & Learning Outcomes

MODULE 101: Smart Hydroponic Crop Production

NQF Level 1

12 Credits

Focus Crops: Lettuce, Bell Peppers, Tomatoes, Culinary Herbs.

- **Unit Standard Mapping:** SAQA US 116203 (Demonstrate an understanding of plant propagation) & US 116205.
- **Teachability Outcomes:** Master closed-loop NFT hydroponic systems, EC/pH monitoring, pest identification, and harvesting techniques.
- **Disability Ergonomics:** Accessible waist-high substrate beds allowing seating/wheelchair access without bending or soil strain.

MODULE 201: Swine Auto-Controlled Microclimate Operations

NQF Level 2

16 Credits

Focus Domain: Automated Swine Husbandry & Climate Engineering.

- **Unit Standard Mapping:** SAQA US 116212 (Observe and handle swine) & US 116218.
- **Teachability Outcomes:** Programming automatic misting/ventilation cooling, automated auger feeding, climate logging, and swine welfare protocols.
- **Disability Ergonomics:** Push-button automated feed discharge and climate override systems eliminate manual lifting of heavy feed bags.

MODULE 202: Sheep & Poultry Precision Husbandry

NQF Level 2

14 Credits

Focus Domain: Small Ruminant (Sheep) Care and Avian Management.

- **Unit Standard Mapping:** SAQA US 116216 (Conduct basic health care of livestock) & US 116219.
- **Teachability Outcomes:** Implement sheep rotational grazing, ear-tag RFID digital tracking, automated poultry egg-collection, and biosecurity.
- **Disability Ergonomics:** Non-slip low-incline ramps for sheep pens; hand-height poultry nesting boxes.

MODULE 301: Solar EV Infrastructure & Adaptive Agricultural Machinery

NQF Level 3

18 Credits

Focus Domain: Clean Energy & Mobility Infrastructure.

- **Unit Standard Mapping:** SAQA US 116311 (Operate and maintain farm technology and machinery) & US 244444.
- **Teachability Outcomes:** Operating solar DC fast-charging systems, managing battery storage arrays, and operating adaptive UTV transport vehicles.
- **Disability Ergonomics:** Charging guns mounted at 800mm height; UTVs equipped with dual hand-controls for mobility-impaired operators.

MODULE 401 & 402: Agribusiness, Cooperatives & OHS Leadership

NQF Level 4

50 Credits Total

Focus Domain: Commercialization, Cooperative Structuring & Governance.

- **Unit Standard Mapping:** SAQA US 116345 (Farm financial management) & US 116365 (Lead business teams).
- **Teachability Outcomes:** Commercial off-take negotiations, cost accounting, AgriSETA grant administration, and inclusive OHS compliance.
- **Disability Desk Leadership:** Mduduzi Wiseman Nkosi leads cooperative structuring to guarantee 50%+ leadership representation for PwDs.

3. Qualification Progression & Credit Accumulation Structure

Qualification Level	Target Competency Level	Required Credits	Primary Outcome
AgriSETA National Certificate (NQF 1)	Fundamental Smart Crop & Hydroponic Operator	12 Credits	Certified Hydroponic Specialist

Qualification Level	Target Competency Level	Required Credits	Primary Outcome
AgriSETA National Certificate (NQF 2)	Intermediate Precision Livestock & Swine Specialist	40 Credits	Certified Swine Microclimate & Livestock Technician
AgriSETA National Certificate (NQF 3)	Advanced Agri-Tech & Solar EV Systems Operator	38 Credits	Certified Smart Farm & Clean Mobility Operator
AgriSETA Further Education Cert (NQF 4)	Agribusiness Manager & Enterprise Leader	50 Credits	Commercial Cooperative Founder / Farm Manager

Honorary Partnership & Execution Commitment

This module architecture is engineered under **Scapush Precision Execution** between **Leth'Khanya Trading (Pty) Ltd** and **Lwandile Engineering Projects**. It provides an unassailable framework for AgriSETA accreditation, donor funding compliance, and transformative empowerment for youth and persons with disabilities.
